

UBISTOR

MICROSOFT 365 PROTECTION

POWERED BY ACRONIS

UbiStor's Microsoft 365 solution protection leverages Acronis Cyber Protect Cloud to ensure recovery of all online data sources used by your organization. Our granular recovery capabilities provide flexible point-in-time recovery and the ability to preview and search through your backed up content backed in Microsoft Exchange Online, OneDrive for Business, SharePoint Online and Microsoft Teams.

Our Microsoft 365 easy-to-use and secure cloud-to-cloud backup puts your Microsoft data under your control. Our solution ensures compliance, quick access to backup Microsoft 365 data, and greatly improved recovery time objectives.

Acronis

ABOUT ACRONIS

Acronis Cyber Protect Cloud is a platform that delivers data protection services with an unprecedented level of ease. Gain access to an integrated managed service that will assist with the configuration and on-going data recovery. With our Microsoft 365 protection, you can backup data from Microsoft directly to our highly secure Acronis data centers located globally.

MANAGED SERVICE ADVANTAGES

Reliable

We help protect your business from exposure to regulatory fines, legal penalties, stock price losses, and more from a single interface recovery system.

Eliminating Gaps

In the event of data loss, point-in-time recovery, search backups, and automatic protection of users, groups, and sites are critical.

TECHNOLOGY ADVANTAGES

Thwart Security Threats

Easily recovery from user errors, intentional and unintentional file deletion, and ransomware attacks.

Retention Policy Issues

Ensure regulatory compliance with retention policies and avoid data loss in deactivated subscriptions.

Simplified Management

Enjoy simplified configuration and maintenance of the solution, with no need for agent-Install on local premises.
