# OPTO4Teams

**Microsoft Teams** is fast becoming the collaboration tool of the future and the hub for teamwork that brings together chat, meetings and other Microsoft 365 apps, all in one place. SCB Global's **OPTO4Teams** take this one step further by combining our Cloud PBX capabilities to **Microsoft Teams** out of MS Azure - you can choose from a wide variety of services ranging from hunt groups to more advanced features such as IVR, operator functions, call recording, call queuing, advanced reporting and much more!

## OPTO4Teams A Hub for Teamwork

Teams is designed to act as a hub for all teamwork in Microsoft 365, allowing for collaboration with on-site & remote employees as well as clients. Give your team access a single glass pane for collaboration and communication workspace, right in Microsoft 365. Persistent chat, video meetings, file storage, sharing and tools that teams need – so they can easily come together to achieve more.

## OPTO4Teams Customized for each team

Personalize your workspace and channels by teams or by projects to include content, tools and capabilities that your teams need every day. Add in your favorite Microsoft apps and third-party services to keep the business moving forward.

# OPTO 4Teams Provides Enterprises a complete Microsoft Teams Solution

How does it work?

We have made it simple, through our Microsoft certified cloud hosted Microsoft Azure architecture, which eliminates the need for an on-premise SBC equipment or expertise to enable your Microsoft 365 licensed Team Clients with PSTN calling capabilities reducing network delays.

OPTO 4Teams integration offers more advanced features and call/contact center solutions for those who want more than what is included with Microsoft 365.

## SCB Global Cloud Calling Overview

With 16+ years of experience in delivering voice services, SCB Advantages include:

**Global Coverage:**

Full PSTN replacement covering 49 countries (and counting) and International Numbering in 160+ Countries.

**Lower Spend:**

Flexible calling plans (per minute or bundles) or shared trunk model available with competitive pricing.

**Global Compliance:**

Regulatory compliance in all countries, including emergency services.

**Cloud Infrastructure:**

No on-prem SBC equipment or expertise required – SCB’ network hosts your Teams Voice in the Microsoft Azure cloud without any network delays.

**Global Network:**

Our Geo-redundant, carrier grade network over six global POPS within Azure seamlessly supports all your Teams PSTN calling needs.

**End-to-End Managed Service:**

Proven approach in executing global cloud telephony strategy through our end-to-end managed services.

**Advanced Capabilities:**

Add OPTO 4Teams to light up UCaaS capabilities such as IVR, Fax-to-email, Contact Centre Capabilities such as, ACD, Call Recording, Supervisor, Smart Routing, Agent, Analytics, Wallboards and much more.

## SCB Global Provides Customers Flexible Cloud Calling Options

Customers can mix-and-match SCB Global and Microsoft Calling plan options to meet their global voice requirements. Customers can also connect any existing SIP enabled on-premise or cloud based Phone system to the SCB Teams fabric through Microsoft Azure – giving businesses total flexibility to bring your own carrier (BYOC).
